

# LEADERSHIP LEVELS TOOL

Hello, I'm Manisha. I'm a professional coach and strategic advisor. I help high-achieving professionals tap into their unlimited potential and manifest success. I do this with Core Energy Coaching, powerful questioning, deep intuition, and customized tools.

This Leadership Levels Tool is my free gift to you – it serves as a barometer to help you identify which levels of leadership you operate in at any moment. Leadership levels are fluid and dynamic and each level serves a purpose. The goal is to bring about awareness, so you can understand and make conscious choices to operate in the highest levels possible. By doing so, you will attract abundance, live more authentically, and align to your highest purpose.

## ASK YOURSELF THESE QUESTIONS

- 1 Which leadership level am I operating in now?

---
- 2 How do I feel when I'm leading at that level?

---
- 3 What can I do to shift my energy and align to higher levels of leadership?

---
- 4 How would I act, think, feel and lead differently?

As part of our time together, we'll dive deeper into this tool, learn how to maximize success, & monitor your results for greatest impact. I look forward to connecting!
